The Woodford Sun says: "L. S. Johnson brought to town Monday 3 sugar beets weighing 26 pounds. Johnson sowed one-half acre in beets this year as an experiment, and is delighted with the results. He has been feeding 16 shoats on beets alone for a month and they have nearly doubled their weight—from 60 to over 100 pounds. The beets are fine winter feed for cows and horses. Mr. Johnson raised them on land tired out from tobacco, and that had produced seven crops in ten years, and gave them very little cultivation. He has 22 rows that will yield an average of 1,000 pounds per row. He sold one row in the field, at \$2, which is at the rate of \$88 dollars an acre, and says this was too cheap for them. Potatoes on some of the same land, with more cultivation, made only 50 bushels per acre. Mr. Johnson will try a larger crop of beets next year."

## Home Circle Column.

### A Column Dedicated to Tired Mothers as They Join the Home Circle.

The rose of Florida the most beautiful of flowers, emits no fragrance the bird of Paradise, the most beautiful of birds, gives no song; the cypress of Greece, the finest of trees, yields no fruit; dandies, the shiniest of men, generally have no sense; tall room belles, the loveliest of created creatures, are very often ditto.

The best way to extend charity to persons who are in need is to let them work. Don't give any money to a penniless man or a penniless woman unless he works for it. By the man retains his self respect and the profession of the tramp is discouraged. If a man will attend school and is able to work and is tempted to give him a job. Don't you do it. But in a moment of his work. Odd jobs can be found, and set him at work. Don't advise refusing to relatives, but in a manner that is a dependence of men. If this we could do this all over the country would soon cease to be a paradise for tramps.

### FAITH IN WOMEN

Henry Ward Beecher said, "I think I am more grateful to God for the sense that I have through my mother's example of the substantial integrity and nobility of womanhood than for almost anything else in this world. After a long life I can say that I have not lost faith in women. The longer I live the more I value the more I regard for them. I should look upon it as a fatal error in my soul if I fell from my confidence in the general trustworthiness, honesty, honor and charity of womanhood. Therefore when I hear young men, or men in middle life, or old men, cast gross aspersions on the character of women I feel as if I were in a den of hissing serpents. My soul, come not into communion with such men; abhor them, pass by them for they are themselves for down in corruption. If I hear a man speak contemptuous words of woman, my heart sighs at the thought that he had a mother whose memory he insults."

A room without a couch of some sort is half furnished. Life is full of ups and downs, and all that saves the sanity of the mentally faded and physically exhausted fortune fighter is the periodical "good cry," and momentary loss of consciousness on the upstairs lounge or sofa in the sitting room. There are times when so many of the things that distract us could be straightened out, and the way made clear, if one only had a long, comfortable couch on whose soft bosom he could throw himself, boots and brains, stretch his weary frame, unmindful of tidies and tapestry, close his tired eyes, relax the tension of his muscles and give his harassed mind a chance. Ten minutes of this soothing narcotic, when the head throbs, the soul yearns for endless, dreamless, eternal rest, would make the vision clear, the nerves steady, the heart light and the star of hope shine again.

Swear off, young man, on guzzling beer; the times are hard and you should save; this vile decoction never gave to any one a lasting cheer. Swear off on jokes; a joke that wounds another's breast is no more like a jest than yonder lantern's like a star. Swear off on selfish thoughts and deeds; his life who lives for self alone is like a swamp that's overgrown with deadly vines and noxious weeds. Swear off on loafing; that dark and deep, distort the brows and draw them down; a smile is better than a frown, and you will find it just as cheap. Swear off on blowing in a dime for every nickel you receive, or you will live to mourn and grieve; and swear off buying things on time. Swear off on loafing; honest work will make a palace of your cot; but future benisons will not encourage you to try to shirk. Swear off on all that hur's the mind, or brings corrosion to the heart; from our life let hate depart—swear off on all that is unkind.

### HOME.

There is a vast difference between a house and home. The house is but the building and furniture, the outward shelter and gathering place of the household. The home includes the kindly family affection, the thoughtful care and ready sympathy and mutual confidence and trust of the members. A true home breathes the atmosphere of love. A child should be made to feel that his home is indeed a home, the happiest place in the world to him, not merely an out-

ward shelter, a center and purifier, a reminder of the past, a safeguard into the future, a repository of his holiest memories, a place where the heart shall have

### DEMOCRATIC TICKET.

For President,  
WILLIAM J. BRYAN,  
of Nebraska.

For Vice President,  
JOHN W. KERN,  
of Indiana.

For 9th District,  
JAMES N. KEHO,  
of Maysville.

Spanish War Veterans voted to hold their next encampment at Tamaqua, Wash.

Organize Bryan and Kern clubs and send the names of all the officers and committeemen to John W. Tomlinson, Democratic National Headquarters, Chicago, Ill.

James N. Kehoe made a record in Congress that has not been surpassed by anyone from this district. He is a sober, hard-working representative and a credit to his constituents.

The Chicago man who named trip to William, Jennings and Bryan was fortunate in the circumstances in having more names to draw upon than the lady who complimented a friend by naming the twins Kate and Duplicate.—Courier-Journal.

The farmers are for James N. Kehoe because he has been instrumental in increasing the prices of certain products. He is as much opposed to the night riders as any man in the State, but he is opposing in a legitimate way the encroachments and tyranny of the trusts.

William J. Bryan was the guest of labor leaders in Chicago Monday and was the recipient of an all day ovation. During the morning he reviewed the great Labor day parade and was greeted with almost continuous applause from the marching thousands. In the afternoon he made two extended addresses, one at Forest Park and the other at Brandt's Park.

The Democratic National Committee is calling for the organization of Bryan clubs throughout the country. An organization is requested in every voting precinct. ### Our Neighbors.

Capt. John M. Watson died at Ironton. He was one of the founders of the Norton Iron Works at Ashland.

Pikeville, Ky., Sept. 8.—At a meeting of the Board of Education for Pike county, on last Saturday it was ascertained that there were 15 districts in the county without school-houses.

Dr. Moore, alias Wesley Hamilton, who was arrested at Ceredo a few weeks ago, by U. S. Deputy Marshal Sam Davis, taken to Huntington and released under bond, with T. A. Null as surety to the extent of the sum of \$500, and afterward skipped that bond, was captured Sunday evening in Windsor, Canada, by Deputy Marshal Davis, and is now in the county jail at Huntington, awaiting the action of the Federal grand jury on a charge of sending improper medicines through the mails.

### A GREAT LINE OF FREE ATTRACTIONS.

In line with its policy to put on only the greatest attractions that can be secured, the Kentucky State Fair management has closed a contract with Frank P. Spellman of Cleveland, O., for what is believed to be the best line of free attractions ever seen at a Southern Fair. These attractions will be seen in front of the grandstand each day, including Spellman's Performing Bears and ten other free attractions, such as trapeze acts, mid-air performances, etc.

A Japanese troupe of gymnasts and acrobats, excelling in their line anything ever seen before in Louisville, has been engaged especially for the State Fair, and will be seen exclusively in Kentucky at that time. In addition to the more thrilling of the well-known acts of balancing and gymnastic work, they have devised several features which will be for the first time introduced here.

The thriller of free attractions, however, will be the troupe of trapeze performers, including several men, women and a tiny tot which is hurled by its heels twenty-five feet through the air and is safely caught by one of its elders. Accidents do not occur in this act, but despite their perfection a net is spread for a possible emergency, so that even if an accident should occur, no fatality would result.

The shows already engaged for the "Stretch" are Ferria's Trained Wild Animal Congress, the Dicky Wild West Show and Cow Boy Indians; the Dark Town Fire Brigade; Heaven and Hell Mechanical Device; Johnstown Flood; Palace of Illusions; Electric Palace, and many others which will be added later. This is enough to insure every visitor that there will be something doing every minute.

### CONVENTIONS AND EXCURSIONS.

A new special committee has been created this year by the State Fair management, known as the Committee on Excursions and Conventions, with Mr. Smith T. Bailey as chairman. Already a number of annual meetings for state organizations have been secured, including the Kentucky Beef Cattle Association, the Kentucky Dairy Cattle Club, the Swine Breeders' Association, the State Berkshire Association, the State Horticultural Society, the Good Roads Association and various others of a kindred nature.

A suitable convention hall will be provided underneath the grandstand with every accommodation and convenience possible for the visiting organizations. Chairman Bailey hopes to have many other meetings listed before the opening day and is arranging to have a large number of excursion trains from all sections of the state. In other words, it is his intention to make it a convention week and the banner week in the history of the Falls City for the largest number of out-of-town visitors.

### DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a humming sound or imperfect hearing, and when this is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by Catarrh) that cannot be cured. Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, Ohio. Sold by druggists 5c. Take Hall's Family Pills for constipation.

The death angel has again visited our community and taken from the home of W. M. Wright and wife, their loving little daughter, Carrie, aged seven months and four days. The home has lost a sparkling jewel, but God needed another little angel amidst his shining band and took their darling little Carrie. Weep not, father, mother, brothers and sisters, but only think of her waiting for you up in heaven. Dear friends and relatives if you want to meet little Carrie, prepare to meet her in that bright Celestial City. You can go to her but she can not come to you. Jesus said, "Suffer little children to come unto Me, forbid them not, for of such is the Kingdom of Heaven."

## In Memoriam.

The death angel has again visited our community and taken from the home of W. M. Wright and wife, their loving little daughter, Carrie, aged seven months and four days. The home has lost a sparkling jewel, but God needed another little angel amidst his shining band and took their darling little Carrie. Weep not, father, mother, brothers and sisters, but only think of her waiting for you up in heaven. Dear friends and relatives if you want to meet little Carrie, prepare to meet her in that bright Celestial City. You can go to her but she can not come to you. Jesus said, "Suffer little children to come unto Me, forbid them not, for of such is the Kingdom of Heaven."

## FAMILY CARES.

This Information May be of Value to Many a Mother in Louisa

When there is added to the many cares inseparable from the rearing of children that affliction of weakness of the kidneys and auxiliary organs, the mother's lot is far from a happy one. This condition can be quickly changed and absolutely cured by the use of Doan's Kidney Pills. When this is known the mother's burden will be lighter and her home happier.

Mrs. T. V. Heston, living in Louisa, Ky., says: "I sincerely trust my testimonial may be seen by some other sufferer of weakened kidneys. My daughter was greatly annoyed from the improper action of these organs. She complained of a dull aching across her back and she was unable to retain the kidney secretions. She procured Doan's Kidney Pills and it required but the use of but one box to give her entire relief and she has since been in the best of health."

## FARM NEWS ITEMS.

Good intentions are too much of a burden for some men to bear.

Never box a child on the ear. There is danger of injuring its hearing for life by breaking the delicate drum-membrane.

An old woolen stocking is nice for rubbing up shoes after you have put the polish on. Makes 'em shine like glass bottles.

To make watermelon preserves: Pare and cut the white in discs and boil it a few minutes until tender, then measure as much sugar as rind, and boil the same as any other preserve.

A cheap but durable substitute for linoleum is heavy roofing paper, tacked firmly in place and then stained and varnished. As it begins to wear, the paint or stain and varnish can be renewed.

When stewing tomatoes throw in a little piece of red pepper-pod. It gives a better flavor than black pepper, is more wholesome, looks better and can be taken out when the tomatoes are seasoned enough.

This is my true and tried method of canning corn: Thirteen pints of corn, one of salt and enough water to cover it thoroughly; cook until done. Freshen before using. By this method it will keep for years and is delicious.

In the shed or outkitchen of every farm house there ought to be a closet or box in which to keep dry, clean shoes for the farmer and his boys to slip on when they come in from the stable, or from spreading fertilizers, before they come to the sitting room, or especially to the table, where unpleasant odors are not appetizing. When not at work the footwear, if not polished, should at least be clean and neat.

## THE POULTRY YARD.

September is a good month for captionizing.

Prepare the hens now for fall and winter laying.

A hen house without a south window is a mistake.

Scrape up a lot of road dust for the stock this winter.

Do not tease the gander. There is no more dangerous fowl in the poultry yard than an old gander, especially during breeding season.

If the fowl's legs are scaly, try the remedy of coating them with gas-tar. Allow it to remain until worn off, when the scales, as a rule, will follow.

Sow all duck yards as soon as empty, to rye. This will not only make an excellent green food, cut up in inch lengths, but the rye crop will disinfest the soil.

As a rule, woman makes a success of poultry culture because she is careful, watchful and mindful of all the small details—the little leaks that often sink the ship.

September is a good time to purchase new blood in the way of cockerels or pullets, as a much better bargain can be secured now than later on when the demand is greater.

Now is the time to whitewash the interior of all the houses, and there is no better season than now to repair the roofs and fix up things in general in anticipation of a long and hard winter.

Even the air of the henhouse must be kept clean—clean by the entrance of the pure fresh air and searching sunshine. Have the house so arranged that it can be made an open front during the day time.

The molting season is here. Hens

that are molting now will be through about December, and can be relied upon to supply a good supply of eggs during the following three months when the prices are at the top notch.—From the September Farm Journal.

After the roots are gathered for winter, the stocks should feed over the fields to clean up the small roots, etc.

Do not attempt to winter old ewes. Fatten them quickly on turnips, oil meal, ground corn, etc.

It is well to reserve a patch of turnips for the sheep to feed on. It may be in one corner of the pasture. A patch of one acre will furnish pasture for 25 or 30 sheep for three months.

Restrict the range of the fattening pigs somewhat, but do not confine them to close pens.

Don't let a single apple go to waste. Every windfall will help fit the pigs for an early market.

Cement floors are excellent to save fertility, but they must be kept covered with plenty of bedding, if the stock is to remain healthy.

Breeding sows should be compelled to walk a long way every day. If they walk two or three mile it will be good for them.

Wash the horse trough out every little while and clean the sour feed out of the corners. It breeds colic.

Do not stuff the road horses with hay. A horse can not travel easily with a stomach full of hay crowding his lungs.

Give a small fork full at night, when the horse has time to digest it.

A good handful of cut hay should be mixed with the grain to compel perfect mastication.

Be sure to teach the suckling colts to eat grain before they are weaned.

When the cream is not in the proper condition to churn the loss is more than you may at first suspect.

The loss occurs when the cream is overripe or not ripe enough; in mixing ripe cream and fresh cream, and churning immediately; in mixing cream of different breeds, that containing small fat globules, and large fat globules, etc.

How many cows are you getting ready to board free next winter. You would better stop that leak right off.

—From September Farm Journal.

September, with its cooler temperature and increased verdure, with the coming of the fall rains, is perhaps the best of all fall months in which to hatch young chickens, and grow them to good advantage. It is a season when we all have a second chance to increase our flock of layers for the next season, and, of layers we cannot have too many. As to the fall hatched young roosters. We would advise their disposal to the market. They will be worth quite as much profit in selling them as soon as they get big enough to eat, as if one should carry them over until fully matured and then sell them after the additional care and feed required for the latter purpose.

But, with the pullets it is different. We should get behind our late hatched pullets with all our "chicken sense" and push them to the earliest maturity and get them to laying as soon as possible. And in this connection we may say that it is possible to develop the fall hatched pullets as to get them laying by the March following, regardless of the breed, and even earlier in some instances. We once saw a bunch of October hatched Barred Plymouth Rock pullets that began to

lay, and to it, to the latter part of February following. In our make rapid growth with our hatched pullets, three warm places—good care, a soft mash rich to roost, and a soft mash for breakfast after they are prepped. We do not find soil feathered. We eat at any set good for chickens they come from shore. After they are about nest, nor until they are about nest, nor until they are about nest. The dry mixture of such old. True grains are better and cracked and when fed in them at first, previously outlined. We have chickens are feathered after a sort mass of corn, weaned, warm bran and dried by good a morning will have a tendency to develop and grow fast, and grow plump, them too. We do not find it need to warm it in mild weather, but to fall advances, and the morning come more chilly, it is advisable to dampen the mixture with warm. But never make it sloppy—only slightly damp.

These fall hatched pullets are persistent layers after they once started, and they will continue to help fill the egg basket the autumn following when the two-year old hens and the larger spring hatched pullets shall be in heavy moult, perhaps, and laying little or none at all. For this reason we regard the present time as a seasonable opportunity in which to bring out some chickens to our advantage. We cannot have too many.

#### Ulysses.

On August 31st, Millard Castle arrived here with his little son Teddie, who died of diphtheria at the home of his aunt, Mrs. Marion Castle, of Cincinnati. Mrs. Castle accompanied her little nephew's remains back here, where they laid him to rest September 1st. The burial services were conducted by Rev. Milt Allen. Mr. Castle returned to Cincinnati to the home of his sister-in-law, last Saturday, who had charge of his only surviving child. A little girl six years old.

Sunday morning, Sept. 6, Mrs. Gusie Allen, of this place departed this place for the one far beyond. She has been very low with consumption for quite a while. She is survived by her husband Frank Allen and a little daughter about four years old, and a son about two-and-half years old. She was the daughter of Frank Brown, of Paintsville, and came here the bride of Mr. Frank Allen, perhaps five years ago. She has made many friends since she came here and will be sadly missed. She was taken back to her old home at Dayville for burial.

The death angel has certainly swept through this neighborhood with its relentless hand during the last week, for the passing of Aunt Mary Miller, Sept. 7, is the third victim of the grim monster during the last week. Aunt Mary, as she was called, has long been suffering with dropsy and this morning, Sept. 7, closed her eyes to the scenes of earth and suffering. The deceased was near 70 years of age. Her funeral was preached by Rev. Albert Miller, after which she was laid to rest beside her late husband, Rev. Mark Miller.

Ped Borders is seriously ill at this time with rheumatism.

Arthur Travis, son of Jonathan Travis, has pneumonia.

The funeral of Mrs. Sena Davis, will be preached at her old home Oct. 4.

Mrs. Martha Beasley went to Huntington one day last week.

#### A Farm Wanted.

I have an inquiry for a good farm having a comfortable residence and good orchard on it. Would prefer quality rather than quantity. Those having farms for sale will do well to write me at once, giving full description, price, number of acres level, kind of house, and all particulars that would interest a buyer. Prefer a place within easy reach of Louisa.

Hon. F. P. James, Auditor, is indignant over the gross graft of some ex-officials of Pike county. A comparison of the records of Pike County Clerks office and the Auditor's records at Frankfort, discloses the startling fact that the State and county has been swindled out of several thousand dollars.

The graft and embezzlement of one ex-sheriff of Pike county for the year of 1889 alone amounted to \$1291.58.

Besides this sheriffs and clerks of Pike have collected hundreds of dollars from tax-payers that the Auditor's office has never seen. Auditor James is now prosecuting a campaign all over the State against official thieve and embezzlers.—Pike County Republican.

Olive Hill, Ky., Sept. 6.—The mangled remains of Arthur Boggs, of near here, were found on the railroad track at E. K. Junction this morning. Some suspect that he was murdered and his body placed on the track.

Seneca X. Swinme, having entered a new field of labor, is no longer connected with this office in any way, says the Pikeville Republican. Mr. Swinme starts on his road leavenward next Monday, that is, he has turned preacher—the noblest of callings.—Exchange.

Ironton, O., Sept. 7.—"I followed mother home" were the only words spoken by Herschel Massie, a well-known young clothing clerk, as he staggered into his mother's home dying. Massie had been working at Huntington, where he took sick on Saturday. He died of pneumonia after reaching home.

Wednesday evening of last week Mrs. Levina Davis, wife of Joseph Davis, died at her home near Meek Station, Johnson county, from the infirmities of old age. Mrs. Davis was quite well known here, and both sister-in-law and aunt of Rev. Z. Meek. She belonged to one of the most prominent families in the Sandy Valley.

Deputy Collector G. W. Castle captured El Johnson, who shot to death his brother-in-law, Jake Harper, some weeks ago, and Tom Waggoner, charged with being an accessory, Saturday at the home of Charles Hogg at Gates station and turned them over to the sheriff at Sandy Hook and will, no doubt, get the reward of \$700 offered for their capture.—Bugle-Herald.

Word was received here of a peculiar killing at Nantuck, Va., Saturday evening. A constable named Hatfield attempted to arrest a negro for some trivial offense and when the negro resisted struck him on the temple with his fist. The negro's eye almost popped out of his head and he dropped dead at the officer's feet. No charge has been filed against Hatfield and none is expected.—Cattlettsburg Tribune.

Frankfort, Ky., September 5.—United States Marshal W. M. Mays, who arrived here to night with five alleged moonshiners to await action of the Federal Court told of the destruction of three of the most notorious illicit stills in the Kentucky mountains.

He located the stills on Quicksand Creek, on the border line between Breathitt and Knott counties, and caught the shiners in the act of making whiskey. He destroyed 3,000 gallons of beer. He destroyed

## Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and salivary complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

connecting 17 others with the sale of illicit brew was secured. Marshal Mays says several of them are young girls, who openly sold moonshine whiskey.

Los Angeles, Cal., Sept. 7.—The body of John M. Sears, of Ashland, Ky., was washed ashore at Hermosa beach this morning and authorities are trying to find out how the man came to his death. Nothing on the body indicates whether Sears committed suicide, was the victim of violence or of an accident. No money was found in his pockets, although he is said to have been in prosperous circumstances for some time and was there to recuperate.

It was his custom to go out fishing alone in a boat and friends believe he was upset by the swell from a passing steamer. An effort is being made to communicate with his relatives in Ashland. He was planning to return to Ashland within a few days.

The Graham Bros., who bought of J. T. Day a large tract of oak timber above Lee City last fall, are erecting two of the largest mills ever seen in the mountains to put their product in market. Their system of working is much like the pork slaughter house which a countryman described by saying: "Nothing gets away but the squeal of the pig," as Graham Bros. use every scrap 1x6 inches in making parts for toys. They make chair rungs, backs, rockers, etc., but the main business is wagon parts, such as fellows, plow beams, stocks, &c. The force employed to work this up is necessarily large, and to provide homes for the people employed many houses will be built in addition to their mills and store.—Hazel Green Herald.

Lexington, Ky., Sept. 6.—When the local freight train, which runs from Ashland to this city, arrived in the yards here this morning the engineer found the hand and arm of a negro sticking on the front of his locomotive.

As far as he knew there had been no accident during the run from Ashland and he was at a loss to account for the presence of the gruesome decorations on the engine. Messages were at once sent up the road and it was learned that the train had last night run over and killed Sam Haines, a negro, about half a mile be-

yond Winchester, the arm and hand were torn off the body and carried to this point by the engine. The bloody fragments were sent to Winchester to be buried with the rest of the corpse.

Lexington, Ky., Sept. 3.—William Fife was instantly killed and William Alexandria was fatally injured by the premature explosion of a blast in a stone quarry at Olive Hill, fifty miles east of here. The men had set two blasts. One went off all right but the other failed, and several minutes later Fife and Alexandria went to investigate. Fife stopped and began cleaning the blast hole, when suddenly the powder exploded, hurling him fifteen feet in the air and terribly mangled him. Alexandria was also badly mangled and there is little chance for his recovery.

"Charles J. Howes and wife, Frankfort, Ky., this on the Ventura Hotel register last night, coupled with the proud exclamation, 'that's the first time I ever wrote that,' broke the news to Ashland and Eastern Kentucky friends that popular and talented, genial Charles Howes, of Paintsville, recent unsuccessful candidate for the Tenth District Democratic Congressional nomination, had nevertheless been elected.

Undaunted by the action of the Democratic convention which nominated the Hon. Amos Davis to run against Congressman John W. Langley, Mr. Howes pursued his canvass along other lines with more success, and Tuesday afternoon, when the returns were in, it was learned that Chas. J. Howes, was unanimously elected, the one vote being cast by Mrs. Blanche Hill Cavanaugh, the talented daughter of the late W. S. B. Hill, for years Clerk of the Court of Appeals of Kentucky.—Ashland Independent.

The Paintsville base ball team went to Ashland and defeated the local club by a score of 8 to 1.
